

#### AT THE BIG CASINO.

The De Lorraine sisters in their double buck and wing dance; also coon shouting, novelty dancing and comic song. Their last week.

Fresh milk and cream—Tonopah Dairy.

#### DANCE OF CLERKS

WILL BE ENJOYABLE

A meeting of the Tonopah clerk's social club will be held at Miner's Exchange hall tonight to perfect arrangements for their dance that will take place on Wednesday

evening, June 22nd.

The different committees have been hard at work and have devised many new stunts that will be unveiled.

The dance will be of the "So Different" nature and will be the cause of comment for weeks after. Already a large number of tickets have been disposed of, which is very encouraging. The five-piece orchestra engaged is practicing every night and when the evening arrives will be in shape to dish out strains of the latest dance music.

#### DUCKWATER CASE SETTLED

(Continued from Page Two.)

the works of control herein described and the distribution of water in connection therewith. Said water commissioner or other person shall act under and in accordance with the provisions of this decision.

N. That at all times a flow of water shall be maintained in said canal and through the same into Duckwater creek sufficient to keep the said creek up to the point on the stream bank near the stone mill above the De Flon place that marks the normal flow of the stream, and no diversion shall at any time be allowed that will reduce the said creek below the volume needed to sustain its normal flow.

O. The plaintiff is hereby ordered not to divert any water from the Big Warm Spring or any other body of water on the Big Warm Spring plateau, or in the vicinity thereof, until the said works of control shall be completed and approved by this court or an officer thereof appointed for the purpose, and thereafter only in accordance with this decision.

P. The state engineer's permit to the plaintiff bearing date of September 15, 1908, is hereby modified to the extent necessary to render it consistent with this decision.

Q. Whenever the water of the Big Warm Spring is not in use under said permit as modified by this decision, and is not needed to keep up the normal flow of Duckwater creek, the gate of the dam in the channel of the Big Warm Spring shall be left open so that said water may flow into the Big Warm Spring lake, swamp and ponds.

R. If any other person than a water commissioner shall exercise supervision under this decision, his services must be paid for by the plaintiff herein, but he shall be paid only for such actual service as he may render, and if possible shall be selected from the residents of the Duckwater region so that this expense may be kept at a low figure.

S. The defendants are hereby given judgment for their costs and necessary disbursements therein.

MARK R. AVERILL,  
District Judge.

Pure, fresh apple cider by the quart or gallon at the H. J. Hall Liquor company. 1910
